PROFILE

Data Analyst with a bachelor's degree in computer science and one year of hands-on experience in data analysis, and data visualization to support data-driven business decisions. Skilled in designing and optimizing data Dashboards, extracting insights, and developing analytical dashboards using tools such as SQL, Python, Excel, and Power BI.

EDUCATION

Bachelor of Computer Science, Damietta University
09/2020 – 01/2025 | Damietta/ Egypt

Graduation Project: My graduation project is about Blind Assistance System, where you can control mobile devices through voice commands. We developed an algorithm capable of accurately reading voice signals and controlling mobile device.

Grade: Good Graduation Project Grade: Excellent

PROFESSIONAL EXPERIENCE

DEPI, Ministry of Communications
2025 – 12/2025 | Egypt

Data Analysis Graduate | Digital Egypt Pioneers Initiative (DEPI) Completed a rigorous 140-hour intensive technical scholarship directed by the Ministry of Communications and Information Technology (MCIT). It was studied Excel , SQL , Python , Power BI and Tableau Developed end-to-end data pipelines—from cleaning raw datasets to deploying interactive dashboards—focused on solving real-world business challenges in Sales , HR , Shipping and Manufacturing.

Part Time Project

08/2025 – 11/2025

Engineered robust data pipelines using Excel, SQL, and Python (Pandas, NumPy) to process large datasets and extract actionable insights for strategic decision-making. Designed and deployed interactive Power BI dashboards that utilized Power Query and DAX to provide real-time tracking of sales performance and customer behavior. Executed a detailed customer churn analysis project, leveraging statistical techniques to identify attrition patterns and presenting the results through high-quality visual reports.

Optimized data integrity by cleaning and transforming raw data into structured formats, using Matplotlib and Power BI to communicate complex findings to stakeholders clearly.

CERTIFICATIONS & COURSES

Google Data Analytics (Corsera)- Data Analysis

11/2025 – 01/2026

Mastered the end-to-end data life cycle—Ask, Prepare, Process, Analyze, Share, and Act—to transform raw data into actionable business insights during 9 courses. Developed proficiency in SQL and Python programming through hands-on case studies focused on data-driven decision-making and visualization.

National Telecommunication Institute (NTI) Program- Data Analysis Track

08/2025 – 10/2025

Gained advanced 120 hours technical training in data processing and visualization, focusing on delivering data-driven solutions within the telecommunications and ICT sectors.

National Telecommunication Institute (NTI) Program-Python For Data Analysis

10/2025 – 12/0205

Mastered the use of Pandas , NumPy , Matplotlib and Seaborn for high-performance data manipulation and cleaning to prepare large-scale datasets for analysis and build automated data visualizations and statistical models during 120 training hours .

SKILLS

Technical Skills

SQL, Python, Data Analytics, Business intelligence, Microsoft Power BI, Data Visualization, Microsoft SQL Server, (SSPS) SQL Server Project Services, (SSAS) SQL Server Analysis Services, (SSRS) SQL Server Reporting Service, Databases, Data Warehouse (DWH), Extract Transform Load (ETL), Data Science, Microsoft (Excel, PowerPoint).

Soft Skills

Strong Analytical and Problem-Solving Skills

- Effective Communication and Presentation Skills
- Teamwork and Collaboration
- Time Management and Prioritization
- Adaptability and Flexibility
- Initiative and Self-Motivation
- Leadership and Mentorship , Attention to Detail , Positive Attitude and Willingness to Learn

Language Skills

- Arabic: Mother Tongue
- English: Very Good
